2022 Hagey Lecture: Antoni Cimolino, Artistic Director of the Stratford Festival

Date and Time: Wednesday, October 19 08:00 p.m. - 9:30 p.m.
Address: Theatre of the Arts, University of Waterloo

Antoni Cimolino, Artistic Director of the Stratford Festival, delivers the 2022 Hagey Lecture at the University of Waterloo, about the purpose—and necessity—of theatre, on October 19.

Abstract: Holding the Mirror Up to Nature

Why do children play act? Why, since the earliest democracy, have we gathered together to witness stories told? Is theatre primarily for entertainment? Or, as Hamlet claims, is the “purpose of playing” to “show virtue her feature, scorn her own image, and the very age and body of the time his form and pressure”?

After a lifetime taking part in the madness, mayhem, and hard work of creating theatre, I confess that why we do it and why humans gather to witness it remains a mystery to me. But I will say that it is a joyful mystery. And I suspect that our lives would be much poorer without role playing, make believe, and the willing suspension of disbelief.

Perhaps in this often harsh and surprising world, indulging in the madness that is theatre might just be necessary to our society, our personal growth, and ultimately to our sanity. And, besides – it can be really fun.

Tickets are free. Please register on Eventbrite. Some tickets may be available at the door.
